

# EVtech Wallmount Electric Vehicle Charger

## 7kW • 32A • 1 Phase

- Designed for indoor and outdoor parking area
- OLED display
- 3-core input power cable
- 7.0m cable length

### Specifications

Model No.: ET-32S

**Electrical Output:** 220-240 VAC

**Frequency:** 50/60 Hz

**Max. Charging Capacity:** 7kW

**Output current /phase:** 32A / Single

**Range per hour:** 25 miles/40km (for reference)

**Timer function:** From 1 to 12 hours

**Electrical Protection:** Surge protection, GFCI protection, UVP, OVP, OCP, OTP

**Residual current protection:** Type A + DC 6mA

**IP rating:** IP65 for charger, IP67 for connector

**Operating Temperature:** -30°C to 50°C

**User Interface:** OLED display, Touch button, RFID

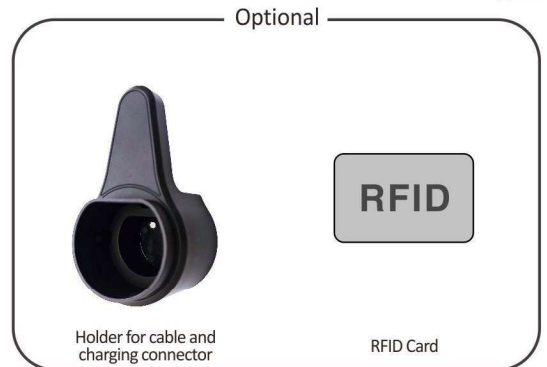

**Safety Standard:** IEC 62196-2

IEC 61851-1

**Dimensions:** 330 x 193 x 90mm

**Net weight:** 7.0kg including cable & charging connector

**Gross weight:** 9.5kg

Note: \* Charging time is subjected to car battery capacity.
